

## *Parent Support Resources*

*(last update 10/22/12)*

### **Mass Family Voices**

A statewide forum for families and providers who are working to improve the lives of children and youth with special health needs. Goals are to assist families in making informed choices regarding care for their children with special health care needs.

### **Family Ties**

Family Ties provides information and referral services, emotional support, and trainings to parents of children with special health care needs. They provide a unique type of support among parents who share similar life experiences.
