#### *Kaileigh Mulligan Program (Home Care for Disabled Children)*

The Kaileigh Mulligan Program allows certain severely disabled children (under age 18) to live at home with their parents and have MassHealth eligibility determined without counting the income and assets of their parents. The child's medical needs must be severe enough to require a level of care equal to that provided in a hospital or pediatric nursing facility. This program covers payments for a wide range of medical and nursing care, and certain medical equipment and supplies for the child. The cost to MassHealth cannot be greater than what it would cost for the child to live in a hospital setting or nursing facility.

### *Enhanced Coordination of Benefits*

Helps MassHealth members and their families with care coordination by identifying all benefits from MassHealth and private insurances and help with application process for MassHealth, MSPCA and COBRA.

### *Insurance Partnership Program*

Through the Insurance Partnership Program, MassHealth helps qualified small employers, including those self-employed, pay for health insurance provided to their employees under age 65 whose income qualifies them for assistance. Small businesses that provide health insurance to their qualified employees can have part of their costs paid for by the Commonwealth of Massachusetts.
